

IMPORTANT PROVIDER INFORMATION
Exclusive Participating Provider Networks

To assist you in quickly identifying and coordinating services for your Simply Healthcare members, below is a list of exclusive participating provider networks that are contracted with our plan. Any referrals outside of these networks are considered referrals to non-participating providers. **As a participating PCP for Simply Healthcare, it is critical that your physicians and staff members refer within the Simply Healthcare network.** Staying within the network will insure that members receive the best possible attention and service. Our Provider Relations Department as well as our Utilization Management Department will be monitoring compliance as it relates to referrals outside of the Simply Healthcare network. Please contact the networks listed below to coordinate contracted in-network services. This information will also be posted at www.simplyhealthcareplans.com
