Description of long-term care services

Adult day health care offers social events and a safe place for members to go while family caregivers are busy. Adult day care centers have health, social, and support services. Most centers are open during work hours. Some have evening, night, and weekend hours. These centers don't have 24-hour care. They may offer healthy meals for members during meal times.

Adult family care home (AFCH) is a private setting that has housing, meals, and personal care services for older persons and disabled adults not able to live alone. An AFCH is run by licensed AFCH providers who live with the members they help. Also, an AFCH is limited to five members at most. An AFCH helps members manage personal care services and medication.

Assisted living has personal care services in a home-like setting. An assisted living facility (ALF) can have many residents. Personal care and some nursing care are available to meet each member's needs. Care may include:

- Adult companion services.
- Attendant care.
- Homemaker services.
- Medication management.
- Personal care services.
- Social and recreational programs.

To live in an AFCH or ALF, a member must meet certain residency criteria established, by Florida regulations and by the provider's admission rules. These facilities offer a home-like residential setting for those who don't need 24-hour nursing care. **Room and board costs are not included.**

Community-based long-term care (LTC) providers help people with disabilities with daily life. Programs and services may include:

- Adult companion care.
- Adult day health care.
- Assistive care services.
- Assisted living.
- Attendant care.
- Behavioral management.
- Caregiver training.
- Care coordination/case management.
- Home accessibility adaptation.
- Home-delivered meals.
- Homemaker services.
- Hospice.
- Intermittent and skilled nursing.
- Medical equipment and supplies
- Medication administration.
- Medication management.
- Nutritional assessment/risk reduction services.
- Nursing facility services.
- Occupational, physical, respiratory, and speech therapies.
- Personal care.
- Personal emergency response systems (PERS).
- Respite care.
- Transportation (nonemergency).

Community-based LTC services have what members may need to assist them with their activities of daily living (ADL), improve their safety and independence.

Hospice is a type of care for members and their families when a disease no longer responds to treatment and a cure isn't expected. Hospice care doesn't extend life nor hurry death. The goal is to help improve the member's last days through comfort and dignity. Hospice care handles the member's:

- Medical care.
- Pain management.
- Emotional, social, and spiritual needs, as well as the needs of family or friends.

Hospice care is offered through a team approach. Bereavement and counseling are also available to families before and after a member's death.

Nursing facilities have nursing, personal, and custodial care for members who are ill or not physically able to care for themselves. Nursing facilities are for members who need 24/7 nursing care and have major health problems making day-to-day life hard to handle. Members are required to pay for their patient responsibility, as decided by the Department of Children and Family Services.

Descripción de los servicios de cuidado a largo plazo

El cuidado médico diurno para adultos ofrece eventos sociales y un lugar seguro para que los miembros vayan mientras los cuidadores familiares están ocupados. Los centros de cuidado diurno para adultos cuentan con servicios de salud, sociales y de apoyo. La mayoría de los centros están abiertos durante el horario laboral. Algunos tienen horarios vespertinos, nocturnos y de fin de semana. Estos centros no cuentan con atención las 24 horas. Es posible que ofrezcan comidas saludables para los miembros durante las comidas.

El hogar de cuidado familiar para adultos (AFCH) es un entorno privado que ofrece alojamiento, comidas y servicios de cuidado personal para personas mayores y adultos discapacitados que no pueden vivir solos. Un AFCH es administrado por proveedores de AFCH certificados que viven con los miembros a los que ayudan. Además, un AFCH está limitado a un máximo de cinco miembros. Un AFCH ayuda a los miembros a administrar los medicamentos y los servicios de cuidado personal.

La vida asistida ofrece servicios de cuidado personal en un entorno similar al de un hogar. Un centro de vida asistida (ALF) puede tener muchos residentes. El cuidado personal y algunos cuidados de enfermería están disponibles para satisfacer las necesidades de cada miembro. La atención puede incluir lo siguiente:

- Servicios de acompañante para adultos.
- Asistencia con el cuidado.
- Servicio de tareas domésticas.
- Administración de medicamentos.
- Servicios de cuidado personal.
- Programas sociales y recreativos.

Para vivir en un AFCH o ALF, un miembro debe cumplir con ciertos criterios de residencia establecidos por las regulaciones de Florida y por las reglas de admisión del proveedor. Estos centros ofrecen un entorno residencial hogareño para aquellos que no necesitan atención de enfermería las 24 horas. **Los costos de habitación y comida no están incluidos.**

Los proveedores de cuidado a largo plazo (LTC) basado en la comunidad ayudan a las personas con discapacidades con la vida diaria. Los programas y servicios pueden incluir:

- Cuidado de acompañante adulto.
- Cuidado médico diurno para adultos.
- Servicios de atención de asistencia.
- Vida asistida.
- Asistencia con el cuidado.
- Manejo conductual.
- Capacitación para cuidadores.
- Coordinación de cuidado/administración de casos.
- Adaptación de la accesibilidad de la vivienda.
- Comidas entregadas a domicilio.
- Servicio de tareas domésticas.
- Hospicio.
- Enfermería intermitente y especializada.
- Equipos y suministros
- médicos Administración de medicamentos.
- Administración de medicamentos.
- Servicios de evaluación nutricional y reducción de riesgos.
- Servicios en centros de enfermería.
- Terapia ocupacional, fisioterapia, respiratoria y del habla.
- Cuidado personal.
- Sistemas de respuesta ante emergencias personales (PERS).
- Cuidado de relevo.
- Transporte (no de emergencia).

Los servicios de LTC basados en la comunidad tienen lo que los miembros pueden necesitar para ayudarlos con sus actividades de la vida diaria (ADL), y así mejorar su seguridad e independencia.

El hospicio es un tipo de cuidado para los miembros y sus familias cuando una enfermedad ya no responde al tratamiento y no se espera una cura. El cuidado para enfermos terminales en un hospicio no prolonga la vida ni acelera la muerte. El objetivo es ayudar a mejorar los últimos días del miembro a través de la comodidad y la dignidad. El cuidado para enfermos terminales maneja lo siguiente:

- Cuidado médico.
 - Manejo del dolor.
 - Necesidades emocionales, sociales y espirituales, así como las necesidades de familiares o amigos.
- El cuidado para enfermos terminales se ofrece a través de un enfoque de equipo. También hay duelo y consejería disponibles para las familias antes y después de la muerte de un miembro.

Los centros de enfermería ofrecen atención de enfermería, personal y supervisado para los miembros que están enfermos o que no pueden cuidar físicamente de sí mismos. Los centros de enfermería son para miembros que necesitan atención de enfermería las 24 horas, los 7 días de la semana y tienen problemas de salud importantes, lo que hace que la vida cotidiana sea difícil de manejar. Se requiere que los miembros paguen por su responsabilidad como pacientes, según lo decida el Departamento de Servicios para Niños y Familias.
